

Columbus Adjustable Wall Light (Short)

The Columbus Adjustable Wall Light is made from solid brass and re-creates the look of lighting used in the map rooms of ships and working war rooms, from World War II. Specific for task lighting, we use dimmable warm white LED bulbs that are shrouded by conical shades, excellent for this task. Because of the focused spread of shrouded light, they are excellent for highlighting tables and walls or featuring spaces such as countertops. The Columbus Wall Lamp adjusts through a 150 degree axis at three points. Shown here with a GU10 LED dimmable lamp (supplied complete). It's ideal for bedrooms or reading areas where a vintage style is being adopted.

SIZE OPTIONS	Long: H:12.5 - 23cm W:13cm D:31-54cm (H::4.92"-9"xW:5.11"xD:12.2"-21.2") Short: H:17x W:13xD:23cm (H:6.7" xW:5.1"xD:9.5") This wall lamp is hand-crafted, dimensions might vary slightly
